ABOUT US

CAIN Educational Foundation is a 501(c)(3) nonprofit committed to empowering underprivileged students across Africa with **quality education and digital skills**. Since 2013, we have impacted over 12,000 beneficiaries, investing \$235,000+ in funds and resources to equip young minds with the tools to break the cycle of poverty and compete globally.

13+

Empowering
Programs

At our Educational Resource Center in Alimosho, Lagos' largest community, students gain practical digital skills, career enrichment, quality education in critical subjects, and leadership training, preparing them for future opportunities. While CAIN Africa once supported healthcare, our full transition to education underscores our belief that knowledge is the foundation for lasting change.

With the support of our partners and sponsors, we continue to bridge the education gap, unlock potential, and transform lives—one student at a time.

FROM THE FOUNDER'S DESK

**MAY
OGHENERUKEME ASAGBA**

The other day, I was chatting with a college buddy, and she asked, "How is it that CAIN is thriving and scaling its impact despite the horrendous inflation in Nigeria?" I burst out laughing because of her humor. But after the call, I couldn't shake the gratitude that flooded me. Real, heartwarming appreciation for all of you who've supported us through thick and thin.

In a world where resources are stretched so thin, where life itself seems to be elbowing for space in your wallet and your time, you've still found room for us. You've stepped up in ways big and small, whether it's through donations, sharing our posts,

or even just mentioning our work to someone else. Even if my team and I can't see every gesture, trust me, we feel it—and we are SO grateful. From the deepest part of my heart, THANK YOU.

2024 was a wild ride. It stretched us in ways we never thought possible. Our staff, volunteers, resources, and funds were stretched—almost to the breaking point. But here's the thing: when the economy takes a hit, the underprivileged feel it the hardest. Our services become more crucial, but the funds that help us keep going become harder to come by. The struggle is real.

But despite the odds, our impact—both in measurable outcomes and the lives we've touched—is beyond what I could have imagined. Yes, my fingers are sore from all the fundraising (and my brain might still be recovering from trying to figure out every possible funding option), but my heart? It's bursting with pride for what we've achieved together.

So, here's to more years of giving, growing, and lifting up those who need it most. With you by our side, we'll continue to push boundaries and make waves of change. Thank you for being part of this incredible journey. We couldn't do it without you.

2024 KEY SUCCESS METRICS

120 Students

Mastered core subjects through our **Daily Mathematics and English Tutorials**, building confidence and academic excellence.

23 Students

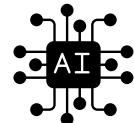

Gained life-changing digital skills in our **ICT4U Program**. Skills like Graphic Design and Software Development, unlocking new pathways to success.

208 Students

Connected with global leaders and received invaluable career guidance from established professionals through our **Career Enrichment Program**.

50 Students

Explored the future of technology with hands-on experience in Artificial Intelligence (AI) at our **Akaeze Summer Program**.

24 Students

Received one-on-one mentorship that shaped their growth and decision-making through our **Mentorship Program**.

298 Users

Accessed knowledge and research as registered users of our equipped **library**, fostering self-learning and academic advancement.

582+ Individuals

From **118 underprivileged families** received nutritious food items and support from our Food Drives - **Christmas Benevolence Program and Monthly Food Drive**.

151 Students

Thrived through play and connection at our **Games Day**, blending recreation with learning and building social skills.

OUR PROGRAMS

Through our programs, we take a holistic, systems-based approach to tackle interconnected challenges—bridging gaps in quality education, digital skills, hunger, unemployment, and access to essential resources for underserved African students and communities.

01 CAIN DAILY TUTORIALS	06 MENTORSHIP PROGRAM
02 ICT4U PROGRAM	07 THE CAIN LIBRARY INITIATIVE
03 CAREER ENRICHMENT PROGRAM	08 AKAEZE SUMMER PROGRAM
04 MONTHLY FOOD DRIVE	09 LIFE HACK PROGRAM
05 CHRISTMAS BENEVOLENCE PROGRAM	10 CAIN GAMES DAY

DAILY TUTORIALS

Our Daily Tutorial Program remains a lifeline for 120 underprivileged students, providing consistent, high-quality Mathematics and English lessons that drive real academic progress.

This year, we enhanced learning by integrating audiovisual tools, making lessons more interactive and accessible. This innovation significantly improved comprehension, especially for students struggling with complex concepts.

120

**Students
Benefitted from
the tutorials.**

59%

**Average increase in
academic performance
of beneficiaries.**

24%

**Increase in technology
use in our classrooms
from 2023.**

The results speak for themselves. Students in the program saw an average 59% increase in academic performance. ***A standout success is Adande Joy, who transformed her Mathematics grade from a 'D' to an 'A', a testament to the power of tailored support and quality education.***

We are proud of every student and grateful to our supporters who make this impact possible. Together, we are bridging learning gaps and unlocking potential!

ICT4U PROGRAM

In 2024, we launched the ICT for Underprivileged Students (ICT4U) Program, taking a bold step toward bridging the digital divide for underprivileged students. With donations from Microsoft and Google employees, we set up a Digital Skills Lab equipped with four high-tech computers and essential gadgets to kickstart the program. While the lab isn't running at full capacity yet, its impact has been profound.

23

**Students empowered
through the ICT4U
Program.**

62%

**Average increase in
computer knowledge and
proficiency.**

Through this initiative, 23 students who previously had no access to computers now navigate the digital world with confidence. Elizabeth Adepoju, for example, went from not being able to power on a computer system to writing codes to design functional query and login pages. Onabanjo Michael has become skilled in graphic design using tools like Corel Draw, while Farouq Adetola amazed everyone by scoring 98% in his first coding competition.

Despite its modest beginnings, the ICT4U Program is proving to be a beacon of opportunity, opening doors that were once firmly shut. We're excited to grow this program in the coming year, ensuring that even more students can harness the power of technology to change their futures.

CAREER ENRICHMENT PROGRAM

This year, our Career Enrichment Program impacted the lives of 208 students, connecting them with 11 accomplished professionals from diverse fields. Among these inspiring figures were Mr. Ibitoye, a software engineer at Microsoft, and Disha Ganjegunte, a Harvard Scholar, who shared their journeys and insights.

208

**Students
Benefitted from
the program.**

96%

**Satisfaction rate among
beneficiaries and
facilitators**

11

**Professionals from 8
different industries
served as facilitators.**

Adding innovation to this year's program, we introduced virtual meetings, allowing students to connect with professionals outside the country. For many, this was their first-ever experience with such possibilities, opening their eyes to the global opportunities available to them.

These sessions weren't just talks—they were moments of transformation. Students saw firsthand what is possible with hard work and determination, shattering limiting beliefs about their potential. For many, it was the first time they could truly envision careers beyond their immediate circumstances, inspiring them to dream bigger and aim higher.

AKAEZE SUMMER PROGRAM

Our Akaeze Summer Program was a transformative experience, introducing 50 students to the world of Artificial Intelligence. Over four weeks, they explored AI fundamentals, the history and evolution of Artificial Intelligence, ethical considerations, AI tools, and real-world applications of AI.

To enhance learning, we created **The AI Adventure**, an age-appropriate guide, and paired it with the **iRobot** movie for a practical AI illustration. Students also engaged with **Extended Reality (XR)** and **Augmented Reality (AR)** through our partnership with **Imisi 3D**.

50

Students were empowered with AI knowledge

98%

Average increase in AI knowledge among beneficiaries

60%

Average increase in AI tools usage among Beneficiaries

Expert AI professionals from **Optimus Digital Future** led an insightful session on AI in Society, sparking curiosity and innovation. Additionally, **Optimus AI Labs** provided a three-month **Ziki.ai** subscription, enriching students' learning with personalized AI-driven tools.

This program was more than a learning experience—it was an invitation for these young minds to dream, innovate, and shape the future.

THE LIBRARY INITIATIVE

Our library continues to be a beacon of learning and a hub for diverse users, with 298 registered members accessing its resources for free. These members span a broad spectrum, including the general public, high school graduates, university students, and even working professionals who utilize the space as a productive alternative to working from home.

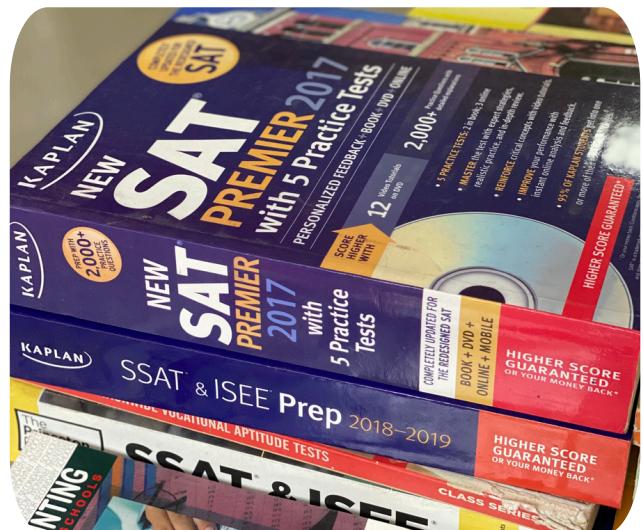

This year, the library has truly embodied our mission of fostering education and intellectual growth by providing free access to a wide range of books, study materials, and other valuable resources. Whether it's exam preparation, research, professional development, or a quiet

298

**Registered Library users,
including university students,
working professionals, and
members of the general
public**

space to think, our library serves as a safe haven for intellectual pursuit and personal growth.

We are particularly grateful for the incredible support received through book donations from generous individuals and organizations. Notably, we extend our heartfelt thanks to The Jeremiah Foundation and Dr. Funmilayo Olagbaiye for their significant contributions.

MENTORSHIP PROGRAM

This year, 24 students experienced the transformative power of one-on-one mentorship through our Mentorship Program. Designed to provide tailored guidance and support, the program equips students with the tools to make informed decisions about their education, career paths, and personal development.

What makes this initiative truly special is the personal touch brought by our Founder and CEO, May Asagba, who personally leads the mentorship sessions. Her hands-on approach ensures that each student receives not just guidance, but genuine care and counsel. Through her interactions, students gain clarity, build confidence, and feel empowered to dream big and achieve more.

The impact of this program extends far beyond the sessions—it shapes the way these young minds approach challenges, set goals, and envision their futures. It's not just about academic or career success; it's about fostering a holistic sense of purpose and direction.

24

**Students benefitted from the
one-on-one mentorship
experience with our Founder
and CEO, May Asagba**

LIFE HACK PROGRAM

In 2024, our Life Hacks Program continued to serve as a transformative platform for our final-year students, equipping them with essential life skills and preparing them for life beyond secondary school. This program goes beyond the conventional curriculum, addressing key social and personal development topics that shape well-rounded individuals.

206

**Students benefitted
from the program**

11

**Impactful sessions were
held, addressing critical
life topics**

Through 11 impactful sessions, 206 senior-year students engaged with topics such as **Emotional Intelligence, Friendship, and the Rule of Law**. These themes were carefully chosen to instill self-awareness, empathy, and a deeper understanding of their role as active, healthy members of society.

By addressing these crucial yet often overlooked areas, the Life Hacks Program molds these emerging young adults into fine citizens who are not only academically prepared but also socially conscious and emotionally balanced.

GAMES DAY

At CAIN Africa, we believe that education is not just about academics but also about fostering holistic growth. Our Games Day offers students a chance to unwind, socialize, and engage in friendly competitions that build teamwork, resilience, and a sense of community.

In 2024, we hosted 2 vibrant editions of Games Day, impacting over 151 students. From board games like chess and ludo, which tested strategy and patience to outdoor activities like sack races and tug of war, that challenged physical strength and endurance, every session was filled with excitement and laughter. The program not only served as a refreshing break for the students but also encouraged collaboration, problem-solving, and healthy competition.

A highlight of the year was the continued rivalry in the highly anticipated Tug of War game, a crowd favorite! The girls proudly maintained their undefeated streak, emerging victorious against the boys yet again with their winning streak intact.

151

Participated in the games and activities.

CHRISTMAS BENEVOLENCE PROGRAM

This year's Christmas Benevolence Program was truly remarkable! With the **₦6,665,996 (\$4,444)** raised, we directly supported 267 individuals from 50 underprivileged families.

Each family received a large food package designed to last 1-2 months, including ***two 5kg bags of rice, 12 pieces of tomato paste, two paint buckets of garri, one paint bucket of beans, sugar, pasta, milk, Milo, Golden Morn, seasoning cubes, salt, groundnut oil, and a carton of noodles***—carefully selected to meet the needs of the average five-member household.

267

Individuals from
50 families were
supported with
food.

\$4,444

Was raised to support
these families with food
supplies.

13

Varieties of food items
were packaged in
each family's gift bag.

The event was a festive celebration, thanks to our generous partners: Pepsi, Aquafina, Mirinda, Vybe, Hydr8, and Supa Komando, who provided drinks; Loracucina, who donated 120 small chops packs; Glazes, who contributed 120 cupcakes; and Wilson Onwuka Studios, who offered free photography.

A special highlight was a **₦50,000** cash prize won by a family during a fun game—bringing extra cheer for the new year.

MONTHLY FOOD DRIVE

In 2024, our Monthly Food Drive became more than just a program—it was a vital lifeline for over 315 individuals from 68 underprivileged families, many of whom were struggling to make ends meet in an increasingly challenging economic climate. The rising cost of living left many families teetering on the edge of survival, and the program stepped in to offer a helping hand when it was needed the most.

Each month, families received generous packages filled with essential food items, providing them with the nourishment they needed to stay strong and hopeful. The packages provided them immense relief and a crucial sense of security in the face of uncertainty.

The Monthly Food Drive reached far beyond simply feeding these families; it restored a sense of dignity and reminded them that their struggles did not go unnoticed. Thanks to the unwavering support of Sandra Duke Catering and our generous individual donors, we were able to reach families who were enduring financial hardship, helping them stay afloat in a year that tested everyone's resilience.

315

Individuals from 68 families were supported with food items.

BUSINESS GRANTS AND SCHOLARSHIPS

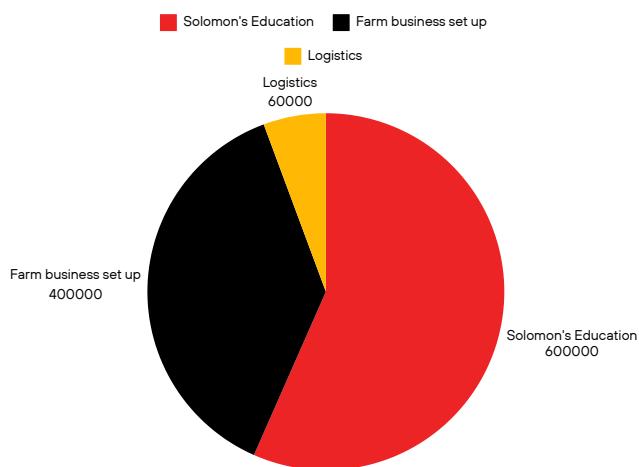

In 2024, CAIN Africa made significant strides in empowering families and individuals in underserved communities through business grants, economic support, and scholarships. Thanks to the generosity of our donors and partners, we provided vital assistance that not only transformed lives but also helped break the cycle of poverty for future generations.

1. MRS. HANNAH AMANO - N1,060,000 GRANT

Mrs. Hannah Amano, mother to Solomon Delight, one of our students at CAIN, received a grant of N1,060,000. Solomon, the 14th child in his family, dreamed of becoming a Computer Engineer but faced dropping out of school like his 13 older siblings due to poverty.

Mrs. Amano, aging and frail, worked as a farm laborer for minimal wages. The grant established a farming business for her, ensuring sustainable income. Solomon was re-enrolled in school, passed his WAEC exams, and is now preparing to pursue his dream career in Computer Engineering.

BUSINESS GRANTS AND SCHOLARSHIPS

2. MRS. BABALOLA - N450,000 GRANT

Mrs. Babalola, a determined single mother of three and mother to one of our CAIN students, received N450,000 to expand her charcoal business. This grant not only secured her family's financial stability but also strengthened the local economy by enhancing her business operations. Her resilience and drive reflect the heart of our empowerment mission.

3. OSHIOGIA HAPPINESS - N100,000 SCHOLARSHIP

Oshiogia Happiness was awarded a ₦100,000 scholarship, which covered her final exams, school needs, and supplies. With this support, she successfully took the 2024 JAMB and NECO exams and is now preparing to retake WAEC to strengthen her university prospects.

We continue to stand by her, providing the necessary resources, mentorship, and encouragement to help her succeed.

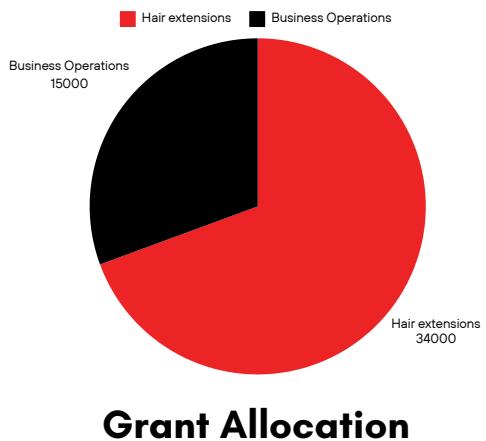

BUSINESS GRANTS AND SCHOLARSHIPS

4. MARY ORHERHE - N49,000 MICRO-GRANT

Mrs. Mary Orherhe, a dedicated hairstylist who previously operated in front of her house, received a ₦49,000 mini-grant to support her business. This included ₦34,000 worth of hair extensions and ₦15,000 for business operations. With this boost, she experienced a significant increase in her

income, allowing her to purchase a small kiosk for display—a game-changer that has helped her attract more customers and expand her business.

AVERAGE MONTHLY INCOME

BUSINESS GRANTS AND SCHOLARSHIPS

5. VICTORIA NWANJI - N400,000 GRANT

Victoria Nwanji received a ₦400,000 grant, empowering her to pursue her dream at Brees Design Atelier Fashion School. The grant covered her tuition (₦200,000), a sewing machine (₦150,000), essential sewing materials (₦35,000), and other admission costs (₦15,000).

In just four months, she advanced from basic measurements to confidently cutting and sewing diverse styles. With continued dedication, she is mastering advanced techniques and shaping a promising future in fashion design. We're proud of her progress and excited to see the designs she'll create!

TESTIMONIALS

It still feels like a dream what I'm able to do on the computer now!

3 months ago, I couldn't even turn on a computer, I can't explain how I am now writing codes and designing websites, it still feels like a dream. - **Adepoju Elizabeth (ICT4U Beneficiary)**

The kids are so smart!

I was highly impressed by how smart the kids are, a testament to the amazing work the CAIN team is doing tirelessly. Exposing underserved kids to information and knowledge to help them dream beyond their circumstances. - **Moyinoluwa Joseph, (Country Lead, Optimus Digital Future)**

I've never seen anything like this in my life!

The gifts I received today, I cannot carry alone. This organisation is a wonder to me. Tutoring my children for free and now giving my family this gigantic Christmas gift. Please help me thank them. - **Mr Ajibade Isreal (Parent and beneficiary of the Christmas Benevolence Program)**

SINCERE GRATITUDE

We extend our deepest gratitude to all our corporate partners, sponsors, and supporters for their unwavering commitment to transforming lives and empowering underserved communities. Your generosity has been instrumental in creating opportunities and driving meaningful change.

To our amazing donors, your contributions are the backbone of our operations, enabling us to sustain and expand our programs. To every individual, staff member, volunteer, and well-wisher who has devoted time, resources, and energy to our mission of providing quality education, digital skills, and essential support to under-resourced communities—thank you for believing in this vision and making it a reality.

Together, we are building a brighter, more inclusive future for underserved African students. Here's to achieving an even greater impact in 2025!
